METAL FOLDING BIKE LOCKERS

SPECIFICATION

Construction

Dry specification lockers are manufactured from Mild Steel, wet specification lockers are manufactured with Stainless Steel frame and Aluminium body. Spot welded and pop riveted.

Door

Door manufactured from mild steel for dry specification lockers and zinc plated mild steel for wet specification lockers. Full length door stiffeners for extra door rigidity and two 'five knuckle' semi-concealed hinges.

Lock

Each door is fitted with a Camlock or Hasp and Staple lock as standard.

Perforations

Lockers can be manufactured with partially or fully perforated doors on request.

Numbering

Doors can be fitted with a plastic escutcheon plate around the lock, which can also act as a name card/locker number holder. Maximum of 4 numbers. Other numbering options are available.

Colours

Body is powder coated in colour 'Ice' as standard, colour options for doors can be selected from Helmsman's standard Powder Coated colour range.

Helmsman can also offer installation. Please ask the sales team for more information.

We're happy to match other specifications or bespoke requirements.
