GLASS CUBICLES

SPECIFICATION

Construction

11.52mm clear laminated toughened glass made up of 2 x 5mm glass panels with 1.52mm EVA interlayer with PAR 5mm/Dubb corners. The top rail is a polished stainless steel tube.

Brushed stainless steel brackets for securing panels to each other and to walls. Tamper-proof fixings are available as an alternative.

Door

Each door is fitted with 2 brass hinges, incorporating an anti-finger trap and anti-lift design. The door can open inward or outward to suit site requirements. Easy to use robust brushed stainless steel indicator latch.

Hooks

Single stainless steel coat hook.

Seats

Changing cubicle seats are made from Solid Grade Laminate with all edges profiled.

Accessories

Available on request.

Colours

A selection of RAL colours is available. Top rail, hardware and door furniture are brushed stainless steel, requiring minimum maintenance.

Helmsman can also offer installation. Please ask the sales team for more information.

We're happy to match other specifications or bespoke requirements.
