

HELMSMAN

Lockers and Cubicles

Melamine-faced chipboard (MFC) is known as a laminated chipboard, a composite sheet material created by combining wood shavings and 'chips' with strong resin glue.

Helmsman's MFC and MRMFC (moisture-resistant melamine faced chipboard) are cost-effective and hardwearing solutions for lockers and cubicles, providing you with years of service whilst withstanding wear and tear.

With a range of materials available, we can supply lockers and cubicles for dry and moisture-resistant environments.
