# Who We Are

With over 5,500 square metres of offices and factory in Bury St Edmunds, our local workforce has over 40 years of experience working with architects, designers, specifiers, contractors and end-users helping them realise their most creative projects.

We are used to working across different sectors from leisure, healthcare and education through to commercial, retail, construction and industrial.

We are able to offer off-the-shelf products as well as bespoke solutions, be they aluminium, steel, glass or solid grade laminate. With a wide range of colours and styles, coupled with options from charging points to different locking systems, we provide the very best solutions for any project.

We supply throughout the UK and Ireland as well as across Europe and the Middle East and can offer supply only solutions to a fully managed turnkey service if preferred by the client.

- Sector and building type
- Layout discussion
- Locker design
- Complementary products
- Site Visit

## Fabrication

All our lockers are manufactured at our factory in Suffolk where we have long-serving skilled teams producing high-quality bespoke lockers and cubicles manufactured for each project.

## Installation

Once the order is placed, the project is handed to the locker and cubicle installation manager who is responsible for overseeing the team that will install the lockers and cubicles. He works alongside the factory manager and ensures the products are manufactured on time and to the correct specification within the agreed time frame.

## After Sales Service

To maximise optimal performance and the longest life cycle, we offer a complete range of after-sales care and service. This ranges from a regular maintenance contract to ad hoc repairs. We handle repairs and maintenance of lockers and cubicles too.

The background of the right side of the page features a blurred image of architectural floor plans with various lines and colored markers (pink, green, blue). In the bottom right corner, a portion of a calculator is visible, showing numbers like 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300.

Our Process

# Leisure Lockers

Our Leisure Lockers are specifically designed for areas subjected to chlorinated and high moisture and humidity. Manufactured on-site from aluminium with radised internal corners and feature solid grade high-pressure laminate doors. They are ideal for use in areas of high moisture and humidity as its solid core construction means there is no risk of peeling, cracking or delamination.

The lockers are manufactured with extruded doorframes and continuous door hinges. The curved single-piece body of the locker is easy to clean and therefore hygienic and with no sharp edges or dirt traps.

Equality compliance is right of utmost importance and we're able to manufacture wheelchair-friendly half-height lockers so that the chair can fit neatly beneath the compartment.

Standard size of leisure lockers is 1800H x 300W x 450D.  
Other sizes available on request.

# Glass Lockers

Glass locker bodies are manufactured from aluminium and locker doors are from PAR 10mm toughened coloured glass with a roller coat paint finish inside the locker door.

Each locker is fitted with a plastic hook on the right-hand side as standard. Each door is complete with an aluminium plate with engraved numbers. Standard Cam Lock supplied for each door, other options available as an extra.

Our standard locker sizes are: 1800H x 300W x 450D, but we are more than happy to manufacture lockers to suit customer requirements and can create bespoke lockers with bespoke sizes.

Its non-porous nature means the surface doesn't absorb or allow the ingress of particles. In addition, these lockers do not require a lot of maintenance once installed and keep looking fresh and clean.

# Z Lockers

Z Lockers are often used where space optimisation is required and are designed for the storage of larger personal items and hanging space. If you require a space-saving solution Z lockers are perfect for you.

Z locker bodies are manufactured from heavy gauge mild steel or aluminium and stainless steel for a wet environment. Z locker doors are manufactured from solid grade laminate.

Each locker is fitted with two hooks on each side at the top of each compartment. Each door is complete with an oval plastic number plate. Standard cam lock or hasp lock supplied for each door, other options available as an extra.

Our standard locker sizes are: 1800H x 300W x 450D, but we are more than happy to manufacture lockers to suit customer requirements and can create bespoke lockers with bespoke sizes.

# Leisure Cubicles

Freestanding fully framed cubicles are durable and stable. They are available with a large colour choice and with no visible fixings, they are aesthetically and visually appealing.

Manufactured using solid grade high-pressure laminate from Abet Laminati, their non-porous fabrication offers a hardwearing, durable and aesthetic solution for cubicle and locker applications with excellent resistance to impact, scratches and abrasion.

With a solid core construction and manufactured to EN 438-2, it means there is no risk of peeling, cracking or delamination and they are ideal for areas of high moisture and humidity such as leisure centres and swimming pool changing rooms.

Cubicle sizes are tailored to suit your requirements. Self supporting fully framed design.

# Glass Cubicles

Opaque glass cubicles are the epitome of luxury and are frequently used in high-end applications.

The combination of glass with polished flat edges and stunning minimalist brushed stainless steel fittings looks fantastic and is the ultimate aesthetic finish perfect for both wet and dry environments. Match these lavish shower and toilet cubicles with glass lockers.

Manufactured from 11.52mm clear laminated toughened glass made up of 2 x 5mm glass panels with 1.52mm EVA interlayer with PAR 5mm/Dubb corners. The top rail is a polished stainless steel tube. Brushed stainless steel brackets for securing panels to each other and walls. Tamper-proof fixings are available as an alternative.

Each door is fitted with 2 brass hinges, incorporating an anti-finger trap and anti-lift design. The door can open inward or outward to suit site requirements. Easy to use robust brushed stainless steel indicator latch.

# IPS & Vanity Units

## **IPS Panels**

IPS Panels (Integrated Plumbing System) allow for quick on-site installation coupled with clean-cut lines and a modern look. Maximum height up to 3000mm.

We manufacture a ground-breaking panelling system in either zinc plated wet spec metal or timber with a solid grade laminate decorative surface. These are perfect for toilets, urinals and basin units.

## **Vanity Units**

We are able to design and supply high-quality solutions for handwash units, hair-drying areas and baby change.

Manufactured from solid grade laminate in a wide range of colours, these are perfect for both wet and dry demanding environments.

# Bench Seating

We manufacture bench seating as either a standalone product or part of an integrated washroom solution with complimentary lockers and cubicles. Suitable for both wet and dry areas, the high-quality bench seating provides comfort and durability.

They are available in a wide range of configurations such as seat stands integrated with lockers, as cubicle benches or freestanding.

Island benching: Freestanding bench, optional shoe tray.

Single-sided bench: Available with coat hook bar.

Double-sided bench: Freestanding with coat hook bar.

Cantilever seating: Depending on the strength of the wall, bracket recommended every 500mm.

Wall/floor seating: Fixed to either or both wall and floor. Recommend a bracket every 500mm.

Bespoke tailor-made solutions are also available. Wall-mounted coat hook bar with 5 hooks as standard. Bespoke options are available.

# Accessories

We carry and supply a wide range of accessories for all our ranges whether it's for a new project or to replace broken or missing items.

Clients are able to specify a wide range of carefully chosen high-quality accessories from standard locks to contactless locking systems.

Selected for superior styling with practical durability, our accessories add the perfect finishing touch to any changing room, washroom or locker room. Our main lock supplier is Ojmar Intelligent Locking Systems and they are able to supply locking systems suitable for both wet and dry environments and for different uses and types of user.

# Case Studies

# Dairy Hall Leisure Centre, Northern Ireland

Their high-quality health and fitness changing facilities were fitted with leisure glass lockers in the form of our leisure lockers in one compartment, two-compartment and three compartments fitted with 10mm glass-silk blue doors. These lockers were installed onto plinths under bulkheads with attractive motion-sensor operated LED downlighting (supplied by other trades) to add to the appeal of the glass doors. We also supplied cubicles, bench seating, IPS which complemented the area.

The wet side changing and dry sports changing areas were supplied with leisure lockers. Locker doors were selected from the Formica range in a mix of violet, heather and grey, red, yellow and oak, leaf green, lime and grey and tropical blue, blue and grey.

## Down Leisure Centre, Northern Ireland

We are proud to have been involved with this fantastic Leisure Centre in Downpatrick. The colour green has given feelings of freshness and nature. Whilst the colour brown in the walnut laminate doors relates to the earth and life. When these colours are combined they are effectively bringing the outside in. We supplied leisure lockers with walnut Formica doors. These are located beside the luscious lime coloured glass lockers and compliment each other beautifully. All these textures and colours engage the senses and uplift the customer giving them the feel-good factor.

Supplied in a clear interlayer and panel glass, the glass shower and toilet cubicles complete the overall look of the changing rooms. This project oozes luxury and quality on all fronts. We are delighted to add to the customer experience with our quality lockers and cubicles at Down Leisure Centre.

# Blyth Sports Centre, Sunderland

Helmsman Lockers and Cubicles designed, supplied and installed a range of lockers and seating in both the spa and dry areas of the centre. To keep the look uniform across the project, high-pressure laminate was used for both seating and lockers. The spa area features 'wet spec' bespoke bench seating topped with an Abet laminate in a teak finish and complemented with matching 2-compartment leisure lockers. The woodgrain effect exudes an air of luxury throughout the space. White wrist straps with locker number and keys complete the scheme and add a subtle contrast.

In the 'dry' area, slatted bench seating was created along with matching 2-compartment leisure lockers and hook bars using Abet's 'Spring White' laminate. The seating was fabricated into slats with a smoke-coloured frame and creates a space of clean-cut lines and symmetry. Abet's compact grade features a solid core construction in 6mm, 10mm or 12mm thickness which makes it a perfect choice for areas prone to high moisture and humidity.

## Ponteland High School, Ponteland

Our Glass Lockers with a mixture of three and six compartments filled the changing rooms in Ponteland High School, suitable for both wet and dry environments. Two main colours of white and blue were used for the locker glass doors, and ABET Laminate colour infills in Spring White and California Blue. The colours and material used to give a mature feel in the changing rooms in both fitness and leisure areas.

Ojmar OTS Basic locks are user friendly and were used for safety and ease. Overall the Ponteland project speaks for itself as it is aesthetically pleasing and provide high-quality storage solution in wet environments with our glass school lockers.

# Kendal Leisure Centre, South Lakeland

Our installation team started this project by fitting our brand of the Front Line changing room cubicles. They fitted the cubicles with inward opening doors. Next benches were fitted inside the cubicles at either side which provides a seat whilst changing. The Frontline toilet cubicles, shower cubicles, family changing areas, baby and disability changing areas were completed. The changing room cubicles were supplied with anti-peep rails. Anti-peep rails are physical barriers fitted at the top of the cubicles, they provide additional privacy for the users whilst changing.

Our heavy-duty lockers in a range of two doors and three doors were placed and bolted together. These are lockers and are ideal for use in swimming pool areas. The lockers were fitted with secure combination locks. These locks are popular for lockers storing mobile phones and other valuables. Grey and lime green colours were used throughout the entire changing rooms. When all the furniture was fitted, including the vanity shelves the changing rooms looked fantastic.

# University Sports Facilities, Strathclyde, Scotland

This was our first new Fully Framed Cubicle System installed in a brand new Sport, Health and Wellbeing facility at the University of Strathclyde.

Here the changing rooms meet modern expectations which are spacious, clean and bright. Our Lockers and Fully Framed changing, toilet and shower cubicles, bench seating, vanity shelves, disabled use lockers and vanity units are in operation. The layout of the changing rooms, the mix of materials used, and the array of colours create a lasting first impression of these fantastic facilities.

The complex contains a six-lane 25m swimming pool, a spectacular 180 piece fitness suite, two four-court sports halls, two squash courts, a dance studio in addition to various specialist health facilities. We are delighted to be part of this success story.
