HELMSMAN

Who We Are

With over 5,500 square metres of offices and factory in Bury St Edmunds, our local workforce has over 40 years of experience working with architects, designers, specifiers, contractors and end-users helping them realise their most creative projects.

We are used to working across different sectors from leisure, healthcare and education through to commercial, retail, construction and industrial.

We are able to offer off-the-shelf products as well as bespoke solutions, be they aluminium, steel, glass or solid grade laminate. With a wide range of colours and styles, coupled with options from charging points to different locking systems, we provide the very best solutions for any project.

We supply throughout the UK and Ireland as well as across Europe and the Middle East and can offer supply only solutions to a fully managed turnkey service if preferred by the client.

Fabrication

All our lockers are manufactured at our factory in Suffolk where we have long-serving skilled teams producing high-quality bespoke lockers and cubicles manufactured for each project.

Installation

Once the order is placed, the project is handed to the locker and cubicle installation manager who is responsible for overseeing the team that will install the lockers and cubicles. He works alongside the factory manager and ensures the products are manufactured on time and to the correct specification within the agreed time frame.

After Sales Service

To maximise optimal performance and the longest life cycle, we offer a complete range of after-sales care and service. This ranges from a regular maintenance contract to ad hoc repairs. We handle repairs and maintenance of lockers and cubicles too.

The background of the right side of the page features a blurred image of architectural floor plans with various colored markers (pink, green, blue) and a portion of a blue and red calculator at the bottom right.

Our Process

Glass Lockers

Z Lockers

Z Lockers are often used where space optimisation is required and are designed for the storage of larger personal items and hanging space. If you require a space-saving solution Z lockers are perfect for you.

Z locker bodies are manufactured from heavy gauge mild steel or aluminium and stainless steel for a wet environment. Z locker doors are manufactured from solid grade laminate.

Each locker is fitted with two hooks on each side at the top of each compartment. Each door is complete with an oval plastic number plate. Standard cam lock or hasp lock supplied for each door, other options available as an extra.

Our standard locker sizes are: 1800H x 300W x 450D, but we are more than happy to manufacture lockers to suit customer requirements and can create bespoke lockers with bespoke sizes.

Laminate Lockers

All the lockers we supply can be classed as 'heavy-duty' as they are all designed to be robust, strong and secure. Our laminate locker doors are made from high-end laminate, they give years of service and withstand wear and tear. Suitable for both wet and dry areas.

With a multitude of colour choices, designs and styles, laminate lockers can blend into existing surroundings and add to the mood and character of a room.

Each locker is fitted with two hooks on each side at the top of each compartment. Each door is complete with an oval plastic number plate. Standard cam lock or hasp lock supplied for each door, other options available as an extra.

Our standard locker sizes are: 1800H x 300W x 450D, but we are more than happy to manufacture lockers to suit customer requirements and can create bespoke lockers with bespoke sizes.

Inline Cubicles

Our range of inline cubicles is designed to cope with the rigorous demands of both wet and dry environments. Inline cubicles are manufactured from solid grade laminate and can come in different sizes to suit different users from individuals to family pods as well as accessibility options.

Headrail material is from rounded extruded aluminium. Aluminium 'U' brackets with tamper-proof fixing used for securing panels to each other and walls.

Fixed door latch with circular faceplate and emergency release facility as standard. Door mounted latches are available as an option. Each door is front flushed fitted with 2 heavy-duty hinges, incorporating an anti-finger trap and anti-lift design.

Aesthetically, the doors and the panels are flush-fitting creating simple clean-cut lines. This makes areas look wider and longer and complement the look of lockers and other fittings.

With extra-long panels and doors, they are visually attractive as well as being extra secure and offering users unparalleled privacy. They can also accommodate shower cubicles with a privacy screen and bench seat as required. Inline cubicles range can be used for multiple purposes.

Glass Cubicles

Opaque glass cubicles are the epitome of luxury and are frequently used in high-end applications.

The combination of glass with polished flat edges and stunning minimalist brushed stainless steel fittings looks fantastic and is the ultimate aesthetic finish perfect for both wet and dry environments. Match these lavish shower and toilet cubicles with glass lockers.

Manufactured from 11.52mm clear laminated toughened glass made up of 2 x 5mm glass panels with 1.52mm EVA interlayer with PAR 5mm/Dubb corners. The top rail is a polished stainless steel tube. Brushed stainless steel brackets for securing panels to each other and walls. Tamper-proof fixings are available as an alternative.

Each door is fitted with 2 brass hinges, incorporating an anti-finger trap and anti-lift design. The door can open inward or outward to suit site requirements. Easy to use robust brushed stainless steel indicator latch.

Front Line Cubicles

Front line cubicles form part of our standard range and are suitable for wet and dry toilet and changing room applications. This bespoke range is available in different sizes and dimensions depending on the client's requirements.

Manufactured from solid grade laminate door 13 mm thick. All exposed edges smoothed and radiused. Headrail material is from rounded extruded aluminium. Aluminium 'U' brackets with tamper-proof fixing used for securing panels to each other and walls.

Fixed door latch with circular faceplate and emergency release facility as standard. Door mounted latches are available as an option. Each door fitted with 2 heavy-duty hinges, incorporating an anti-finger trap and anti-lift design.

IPS & Vanity Units

IPS Panels

IPS Panels (Integrated Plumbing System) allow for quick on-site installation coupled with clean-cut lines and a modern look. Maximum height up to 3000mm.

We manufacture a ground-breaking panelling system in either zinc plated wet spec metal or timber with a solid grade laminate decorative surface. These are perfect for toilets, urinals and basin units.

Vanity Units

We are able to design and supply high-quality solutions for handwash units, hair-drying areas and baby change.

Manufactured from solid grade laminate in a wide range of colours, these are perfect for both wet and dry demanding environments.

Bench Seating

We manufacture bench seating as either a standalone product or part of an integrated washroom solution with complimentary lockers and cubicles. Suitable for both wet and dry areas, the high-quality bench seating provides comfort and durability.

They are available in a wide range of configurations such as seat stands integrated with lockers, as cubicle benches or freestanding.

Island benching: Freestanding bench, optional shoe tray.

Single-sided bench: Available with coat hook bar.

Double-sided bench: Freestanding with coat hook bar.

Cantilever seating: Depending on the strength of the wall, bracket recommended every 500mm.

Wall/floor seating: Fixed to either or both wall and floor. Recommend a bracket every 500mm.

Bespoke tailor-made solutions are also available. Wall-mounted coat hook bar with 5 hooks as standard. Bespoke options are available.

Accessories

We carry and supply a wide range of accessories for all our ranges whether it's for a new project or to replace broken or missing items.

Clients are able to specify a wide range of carefully chosen high-quality accessories from standard locks to contactless locking systems.

Selected for superior styling with practical durability, our accessories add the perfect finishing touch to any changing room, washroom or locker room. Our main lock supplier is Ojmar Intelligent Locking Systems and they are able to supply locking systems suitable for both wet and dry environments and for different uses and types of user.

Case Studies

Dairy Hall Leisure Centre, Northern Ireland

Their high-quality health and fitness changing facilities were fitted with leisure glass lockers in the form of our leisure lockers in one compartment, two-compartment and three compartments fitted with 10mm glass-silk blue doors. These lockers were installed onto plinths under bulkheads with attractive motion-sensor operated LED downlighting (supplied by other trades) to add to the appeal of the glass doors. We also supplied cubicles, bench seating, IPS which complemented the area.

The wet side changing and dry sports changing areas were supplied with leisure lockers. Locker doors were selected from the Formica range in a mix of violet, heather and grey, red, yellow and oak, leaf green, lime and grey and tropical blue, blue and grey.

Down Leisure Centre, Northern Ireland

We are proud to have been involved with this fantastic Leisure Centre in Downpatrick. The colour green has given feelings of freshness and nature. Whilst the colour brown in the walnut laminate doors relates to the earth and life. When these colours are combined they are effectively bringing the outside in. We supplied leisure lockers with walnut Formica doors. These are located beside the luscious lime coloured glass lockers and compliment each other beautifully. All these textures and colours engage the senses and uplift the customer giving them the feel-good factor.

Supplied in a clear interlayer and panel glass, the glass shower and toilet cubicles complete the overall look of the changing rooms. This project oozes luxury and quality on all fronts. We are delighted to add to the customer experience with our quality lockers and cubicles at Down Leisure Centre.

Eos Interiors, Birmingham

Helmsman has manufactured and supplied three-compartment luxury Glass Lockers that have been installed in Birmingham. The Formica storm colour against the white interior walls and Ojmar OCS combination locks give a modern finish. Special numbering plates were used to match the modern style. The Glass Lockers are floating in the middle of the wall thanks to our locker stands and cladding. This Glass Lockers project was a great success.

The corridor has curved walls, but this did not frighten us. Helmsman can deal with any type of space and requirements for any type of project.

Ponteland High School, Ponteland

Our Glass Lockers with a mixture of three and six compartments filled the changing rooms in Ponteland High School, suitable for both wet and dry environments. Two main colours of white and blue were used for the locker glass doors, and ABET Laminate colour infills in Spring White and California Blue. The colours and material used to give a mature feel in the changing rooms in both fitness and leisure areas.

Ojmar OTS Basic locks are user friendly and were used for safety and ease. Overall the Ponteland project speaks for itself as it is aesthetically pleasing and provide high-quality storage solution in wet environments with our glass school lockers.

Station Road, Cambridge

Helmsman Z Lockers, 4 compartment Heavy Duty Lockers and Inline Cubicles were supplied, delivered and installed by Helmsman professionals in an office building in Cambridge.

Our new range of cubicles went into both male and female shower rooms with seat stands attached to bespoke slopping top Z Lockers suitable for a wet environment. Bespoke privacy panels and benches were supplied in each cubicle to keep the bench clear of the water. The bespoke 4 compartment Heavy Duty Lockers were used in the drying room, they were all perforated to allow ventilation. Natural Ash laminate was used across all of our Lockers and Inline Cubicles. Overall this Z lockers and cubicles project was a success as our client was extremely happy with the finished result.
