

Stands & Seat Stands Specification

HELMSMAN

Size (stands & seat stands)

300W x 300D mm

300W x 450D mm

380W x 380D mm

380W x 450D mm

450W x 450D mm

Material

Stands manufactured from mild steel metal and it is powder-coated. A seat can be manufactured from ash hardwood or solid grade laminate (3 slats as standard) but bespoke options available.

Solid grade laminate slats and zinc plated mild steel are suitable for wet areas, please specify upon request.

For laminate and leisure lockers stands and seat stands should be welded 40 x 40 mm square steel tube. For essential metal lockers stands and seat stands should be welded 25 x 25 mm square steel tube.

Optional Extras

Cladding available for stands with powder-coated mild steel or solid grade laminate. Black nylon coating available for stands and east stands.
