# SPECIFICATION

- The standard size of the locker is 1250 mm high x 340 mm wide x 700 mm deep for one compartment. The size of the two-compartment locker is 1600 mm high x 340 mm wide x 700 mm deep.
- If you would like to have more compartments please speak to our sales department for a bespoke quote.
- Our lockers come with Camlock or a Hasp lock as standard, however, you can choose an alternative locking system.
- Manufactured in the UK to a high standard.
- Dry specification lockers made from Mild Steel.
- Wet specification lockers made with stainless steel frame, aluminium body and zinc plated door
- Door and body can be perforated as an additional option.
- Standard RAL metal colours are available.
- Excellent addition to support the Government cycle to work scheme.

We're happy to match other specifications or bespoke requirements
